

Reasoning Cards

Look at the animal.

Discuss what type of diet it has.

What food would this animal eat?

What types of food do carnivores eat?

What types of food do herbivores eat?

What types of food do omnivores eat?

Reasoning Cards

Look at the animal.

Discuss what type of diet it has.

What food would this animal eat?

What types of food do carnivores eat?

What types of food do herbivores eat?

What types of food do omnivores eat?

Reasoning Card 3

What type of food do carnivores eat?

Animals that mostly eat other animals (meat) are carnivores.

What type of food do herbivores eat?

Animals that only eat plants are herbivores.

What type of food do omnivores eat?

Animals that eat both plants and other animals are omnivores.

What type of food would this animal eat?

The animal given is a bear (specifically a black bear as found in North America). Black bears are omnivores. Their diet includes grasses, roots, berries, insects and fish. They can also kill young moose and deer. Children may know that black bears will use our rubbish as a food source. They may also give honey as an answer which is correct and not a misconception.
