

Fronted adverbials- can you recognise and use fronted adverbials?

Can you add commas after the fronted adverbials? Can you think about if they are adverbials of time, manner or place?

Slowly the tiger strolled into the palace.

With trembling hands the servants closed the door.

Behind the pillar the servants held their breath.

All of a sudden the tiger spoke.

Without warning Cinnamon appeared in the entrance.

Early in the evening Cinnamon and the tiger returned to the palace.

Can you write your own fronted adverbials? Think about adding information about time, manner and place. Use the picture or think of your own topic to write about.
