

Spring 2 Homework

Our curriculum theme for Spring is 'Sustainability'. We are hoping to encourage children to think carefully about how their actions impact the planet and how we can all work together to become less wasteful. The homework tasks below have been chosen to ensure that they are relevant, fun and allow the children to present their work in a format of their choosing (often children relish the opportunity to create a Powerpoint presentation to present to the class!). The deadline for tasks is Monday 30th March; however, children are welcome to bring in any completed tasks before then. We encourage children to try and complete 3 tasks of their choosing. Thank you for your support 😊

Can you research a type of reusable energy? Simply type this into Google and tell me what you find!	Research Forrest Green Football Club. Why are they a peculiar football team?	Times tables practice! Create a booklet to practice your 2, 3, 4, 5, 8, 10 and 11 times tables. Use this to help you practice them in future!
Can you create a collage to show a light source in action? This could be the sun hitting a picturesque hillside or a lamp shining in a dark room.	Think of an endangered animal. Can you create a model at home of this creature in its natural habitat?	Can you write a poem about climate change? Your work in class might help you to do this.
What is Holi? Can you use paint to create an image of the scenes during a traditional Holi celebration?	Be a magpie word maestro! When reading at home, create a bank of possible magpie words to share with the class in our English lessons. Maybe you could create a jazzy poster!	Write a letter to Mrs Dowdney. How do you think the school could be more sustainable? Maybe you could research this and pitch her your ideas?
