

# What do you aspire to achieve as you grow up?

Children, as young as 3, begin to form ideas about their place in the world. Therefore it is **vital** that they are exposed to a wide variety of **successful role models** from all walks of life. Our curriculum is designed to expose our children to a range of opportunities and careers with the intention of raising their aspirations for success and to **DREAM BIG!**

# ASPIRATIONS

# What can you do to help protect our planet?

*Sustainability is **essential**; we cannot maintain quality of life for ourselves and future generations without it. It is important that our children understand that sustainability is attainable, if we all exercise our **individual liberty** to make responsible choices. Our curriculum is designed to allow children to critically consider how their actions affect the world we live in while developing problem-solving skills, innovation, creativity, and self-awareness. Children understand how their actions connect to a **LARGER PLAN**.*

*As we educate the next generation in the importance of protecting and looking after the environment, we are working towards a **BETTER AND BRIGHTER** future for all.*

# SUSTAINABILITY

# What is equal?

At New Hartley First School, we are committed to teaching children about ***diversity*** and accepting multiculturalism as a positive aspect of life as early as possible. Our curriculum is designed to allow children to begin to critically explore the roots of the **inequalities** which exist in today's society, enabling educators to empower our children to question, challenge and develop opinions. In doing so, children develop **RESPECT, TOLERANCE AND EMPATHY** while they begin to understand that we all share a common humanity and are all of **EQUAL WORTH**.

# EQUALITY
