

Whole School Summer Term Overview
Overarching Theme – Equality

Intent: We chose to utilise the overarching theme of 'Equality' to complement our curriculum offer. We are committed to teaching children about diversity and accepting multiculturalism as a positive aspect of life as early as possible. Our curriculum is designed to allow children to critically explore the roots of the inequalities which exist in today's society enabling educators to empower our children to question, challenge and develop opinions. In doing so, children develop respect, tolerance and empathy while they begin to understand that we share a common humanity and are all of equal worth.

Key question		What is equal?
	Summer 1	Summer 2
